South University's Virginia Beach campus occupies 32,600 square feet in a large office park with easy access to and from Interstate 264. The campus facility includes nine classrooms plus Nursing, Physical Therapist Assistant, Anatomy and Physiology, and Counseling labs. Classrooms and laboratory space offer advanced "smart" technology to provide students and faculty with instructional equipment to facilitate learning. Also located on campus are administrative offices including admissions, student affairs, financial aid, the library, and the office of the Campus Director & Dean of Academic Affairs and Operations.

The Virginia Beach campus library offers comfortable space for students to congregate for research, study, tutoring, or online work. Floor to ceiling windows open and illuminate the library's welcoming atmosphere, and ample study space encourages independent and collaborative student work. An online library portal with access to more than 60 databases in all disciplines is available electronically 24/7 to all authorized students and faculty on and off campus. Over 50,000 digital textbooks, video clips, images and full text dissertations are also included in the library offerings. The print collection has reference and circulating materials selected to support the programs offered at the school. The library's computer lab is available to students for homework and research, or it can be closed off from the main library and used for instruction.

Serving a diverse student body with both day and evening classes, South University's team of faculty and staff at the Virginia Beach campus are engaged in helping students achieve success. Faculty from a variety of disciplines are available in the Academic Success Center during designated hours, offering tutoring in a relaxed atmosphere. Embracing South University's commitment to critical thinking, the Virginia Beach campus provides the opportunity for an education that creates life-long learners.
