

ACC6999 : Capstone Review

This comprehensive overview course integrates graduate accounting and taxation concepts and skills acquired from previous courses. The course prepares students to take the uniform Certified Public Accountant (CPA) Examination for Certification in Accountancy. This course will review the Financial Accounting and Reporting, Auditing and Attestation, Regulation, and Business Environment and Concepts sections of the CPA Exam. The simulation question requirements of the CPA Exam will also be reviewed.

Credits 4.0
