

# MIS6230 : IT Audit, Control, and Compliance

This course critically examines Information Systems Audit, Control (governance), and Compliance concepts and management practices in the context of Information Systems Management. The course will introduce the fundamentals of information technology (IT) auditing and assurance methodologies, major rules of regulatory compliance (SOX, HIPAA, etc.) as well as IT governance frameworks such as COBIT. The course covers areas needed to prepare for the Certified in the Governance of Enterprise IT (CGEIT) Certification from the Information Systems Audit and Control Association (ISACA).
