

MAT1001 : College Algebra I

The course is designed to develop the concepts needed for College Algebra II using graphs and applications to motivate students and provide real-world examples. The course covers the solution of systems of linear equations, exponents and polynomials, factoring, rational expressions, functions, and quadratic equations. MyMathLab or a comparable resource may be used for lecture, homework and assessment assignment delivery.

Credits 4.0

Prerequisites

[MAT0099](#) (or equivalent)
