

NSG5000 : Role of the Advanced Practice Nurse: Transformational Leadership in Advanced Practice

This course examines the role of the advanced practice nurse in the clinical, primary care, education, administration, research, healthcare specialty, health policy, and political arenas. The historical role of the nurse, nursing theory and leadership models within a variety of healthcare regulatory models provide the basis for self-reflection, self-mastery, professional integrity, and ethical decision making to help the student transition from clinical expert to the advanced practice role. A minimum grade of B is required to pass this course.
