

PSY4900 : Field Placement

This field placement is designed to provide psychology majors with a shadowing experience that exposes them to the practice of psychology and other human services professions. Students are required to spend a minimum of 10 hours per week at the field placement site, a site that the student will secure and the field practicum instructor must approve. In addition, students are required to participate in one and a half hours of weekly group supervision with the field practicum instructor and other students who are engaged in the field placement experience. Finally, students are required to participate fully in the didactic component of the course. The global aims of the field placement experience are for students to see the work of professionals first hand, integrate prior coursework with their field placement observations, and to gain insight into whether they are interested in pursuing a career in one of these areas.

Credits 4.0

Prerequisites

[PSY4540](#) or [PSY4541](#) with a grade of "C" or better, Senior Standing, and a minimum GPA of 2.50 or higher

Corequisites

None
