

PHE4200 : Capstone in Public Health

This course provides students with the opportunity to apply the knowledge and skills acquired in the program courses to a real-world public health experience by identifying, assessing and addressing current issues in public health. Students will demonstrate their ability to integrate and adapt the competencies developed during the course of study to a comprehensive analysis of a public health problem that incorporates communication with working public health professionals and the opportunity to develop professional skills, practical experience and exploration of public health careers. Student must receive a grade of C or higher to pass this course.

Credits 4.0
