

Nursing Specialization in Nurse Administrator

Degree Type

Master of Science in Nursing (MSN)

Admission Requirements

Procedure for Admission to Master of Science in Nursing Programs

Note: Not all Online Program offerings are available to residents of all U.S. states. Please contact an admissions representative for further information.

The criteria to determine admission to the Master of Science in Nursing degree program include:

- Completion of the application for admission
- A bachelor's degree in nursing (BSN) from an accredited institution.
- A cumulative GPA of 3.0 or better on a 4.0 scale.
- Provisional Admissions: South University College of Nursing and Public Health fosters diversity through a holistic provisional admission status for students with a GPA less than 3.0.
 - Applicants with a cumulative GPA of 2.75 -2.99 must receive a final course grade of B or better in all nursing courses for the first quarter to be fully admitted into the MSN program.
 - Applicants with a GPA between 2.50 and 2.74 will be considered for provisional admission with submission of a current resume and a letter explaining challenges faced in previous academic experiences.

Students must receive a final course grade of B or better in all nursing courses for the first quarter to be fully admitted into the MSN program.

Students who do not receive a final course grade of B or better in all nursing courses will have the provisional admission rescinded. There is no appeal for rescinding provisional status.

- Submission of official transcripts from every college or university attended within 5 weeks of the class start date (refer to Conditional Acceptance).
- A valid and unencumbered license as a Registered Nurse in all US states or territory in which the student is licensed, including the state in which the student completes all assignments and clinical rotations, for entry and maintenance of admission to the program. (Note that military, federal, and foreign educated nurses must meet their state/territory requirement for nursing licensure).

For additional admissions information please see the admissions section [here](#).

Program Overview and Outcomes

Master of Science in Nursing (MSN)

The Master of Science in Nursing degree program (MSN) is designed to develop and enhance the knowledge and skills of registered nurses. It is also designed for those nurses who want to pursue advanced positions in today's challenging healthcare environment. The program, based on the American Association of Colleges of Nursing Master's Essentials, blends nursing theory with advanced practice concepts that prepare students to work within a healthcare organization or educational setting.

All applicants to the MSN program must hold a valid and unencumbered license as a registered nurse in all US states or territory in which the student is licensed, including the state in which the student completes all assignments for the program. (Note that military, federal, and foreign educated nurses must meet this state requirement for nursing licensure). An unencumbered license(s) must be maintained throughout the program. Additionally, all applicants must successfully complete a criminal background check and a drug screening. Clinical affiliation agencies may require additional personal testing.

The program consists of five core courses and courses in an area of specialization in education, administration, informatics, and various nurse practitioner programs. Program includes practica and experiences in areas of specialization.

Courses may be waived if the individual's master's transcript indicates that s/he has successfully completed the required course or its equivalent. Waivers and exceptions will be determined on the written request of individual students through a transcript analysis as determined by the Program Director, Chair, or College Dean.

Program Student Learning Outcomes

Upon completion of the program, students will:

1. Synthesize current scientific research, theories, and concepts from nursing and other disciplines for application in advanced nursing roles.
2. Collaborates directly with other healthcare professionals using various resources and technologies in various aspects of the advanced nursing leadership role.
3. Model a professional leadership role to formulate comprehensive plans of action for ongoing contributions to healthcare systems improvement.
4. Formulate a plan for ongoing contributions to improvement of healthcare delivery and development of health policy in a cost-effective manner.
5. Demonstrate ethical and legal standards of practice in the decision-making process to assist with delivery of quality care associated with a specialty area of advanced nursing practice.

Master of Science in Nursing (Specialization in Nurse Administrator)

Offered at Online Programs.

Note: Not all Online Program offerings are available to residents of all U.S. states. Please contact an admissions representative for further information.

The 21st century nurse administrator will transform care of patients and communities through ethical nursing leadership that is evidence-based, outcome-oriented and focused on nursing excellence. The Master of Science in Nursing with a specialization in Nurse Administrator degree program at South University is designed to prepare the next generation of nursing leaders through innovative, blended coursework delivered online. The program is targeted to the working professional nurse who seeks to develop the knowledge, skills and abilities to practice within a role of leadership such as a Chief Nursing Officer, Associate Chief Nursing Officer, Director of Nursing or Nurse Manager. The student will complete 240 practicum hours during progression through the program.

Program curriculum for the MSN with a Specialization in Nurse Administrator concentration includes key attributes from the American Association of Colleges of Nursing (AACN) Essentials of Masters Education for Advanced Practice Nursing (1996), The American Organization of Nurse Executives (AONE) Nurse Executive Competencies (2005), and the American Nurses Association (ANA) Scope of Practice for Nurse Administrators (2009).

Specialization Program Student Learning Outcomes

Upon completion of the program, students will:

1. Develop strategic plans and systems which guides practices that support patient centered care for culturally diverse populations.
2. Organize inclusive interprofessional relationships which assist in the development of innovative and effective care for diverse communities and settings.
3. Construct quality improvement plans which integrate concepts of economics and fiscal stewardship in the leadership and management of a variety of healthcare settings.

Master of Science in Nursing (Specialization in Nurse Administrator): 48 Credits

Core 20 Credits

Course Code	Title	Credits
NSG5000	Role of the Advanced Practice Nurse: Transformational Leadership in Advanced Practice	4.0
NSG5002	Advanced Theoretical Perspectives for Nursing	4.0
NSG5003	Advanced Pathophysiology	4.0
NSG6002	Health Policy and Health Promotion in Advanced Nursing Practice	4.0
NSG6101	Nursing Research Methods	4.0

Specialization in Nurse Administrator: 28 Credits

Course Code	Title	Credits
MHC6306	Human Resource Management in Healthcare Organizations	4.0
NSG6005	Advanced Pharmacology	4.0
NSG6601	Managing Complex Healthcare Systems	4.0
NSG6605	Quality Outcomes and Financial Management in Healthcare Organizations	4.0
NSG6620	Practicum I: Quantitative Skills in Nursing Administration	4.0
NSG6630	Practicum II: Qualitative Skills in Nursing Administration	4.0
NSG6999	Graduate Project in Nursing	4.0
