

# ANS5191 : Anesthesia Simulation I

Establish the clinical skills of a novice anesthesiologist assistant student. Apply American Society of Anesthesiologists (ASA) standard monitoring, perform a basic pre-anesthetic patient interview, demonstrate airway management techniques, manage an adult patient during the perioperative phase of a general anesthetic, and practice communication skills as appropriate for a member of the Anesthesia Care Team while using a high-fidelity patient simulator for the assigned tasks in the course.

**Credits** 1.0

**Prerequisites**

Admission to the Anesthesiologist Assistant Program

**Corequisites**

None
