

# BIO1014 : Anatomy and Physiology II Lab

Anatomy and Physiology II Lab is designed to support, amplify, and clarify the material presented in the theory class BIO 1013 through demonstration and exercises utilizing chart, models, tissues, and organs, as well as typical laboratory equipment. The second part of the term will include a whole specimen dissection, which will assist the comprehensive review of both [BIO1011](#) and [BIO1013](#). Laboratory topic content shall follow the theory class very closely.

**Credits** 2.0

**Prerequisites**

[ENG0099](#), [MAT0099](#), [AHS1001](#), [BIO1011](#), [BIO1012](#) with grades of "C" or better

**Corequisites**

[BIO1013: Anatomy and Physiology II](#)
