

# BUS7001 : Virtual Residency I

The doctoral residencies are a requirement for online students in the DBA program. These are a time for faculty, staff, and cohorts to meet in a collegial learning opportunity. Residencies are designed as a time for students and faculty to work together collaboratively and to support the creation of a community of scholars. Students will spend class time in faculty and staff led presentations and will have the opportunity to network and share their experiences in the program. They will also be able to work collaboratively on their scholarship during the residencies, and opportunities to provide service to the academic community will be discussed. The South University DBA has two residencies. All DBA students in the online program are required to participate in these two residencies; these residencies are part of the complete requirements for the program.
