

# MHA6050 : Regulation and Policy in Healthcare

This course is designed to provide students with knowledge about the concepts and practices of regulation and healthcare policy. Students will learn how policymaking relates to decisions that affect and regulate healthcare providers and patients. They will also gain insight into how they can influence the policymaking process including using healthcare data to formulate plans to improve healthcare service delivery. Students have an opportunity to assess and apply risk management information in situations relative to effective health facility operations in accordance with established laws
